

THE GOLD STANDARD IN ALLERGEN DETECTION: **INVILISA® ELISA KITS** FOR FOOD SAFETY

The InviLisa® ELISA kits provide a comprehensive solution for the quantification of food allergens from a variety of sources, including different fresh and processed food products, rinse waters and environmental swab samples.

ELISA KITS HAVE NUMEROUS ADVANTAGES

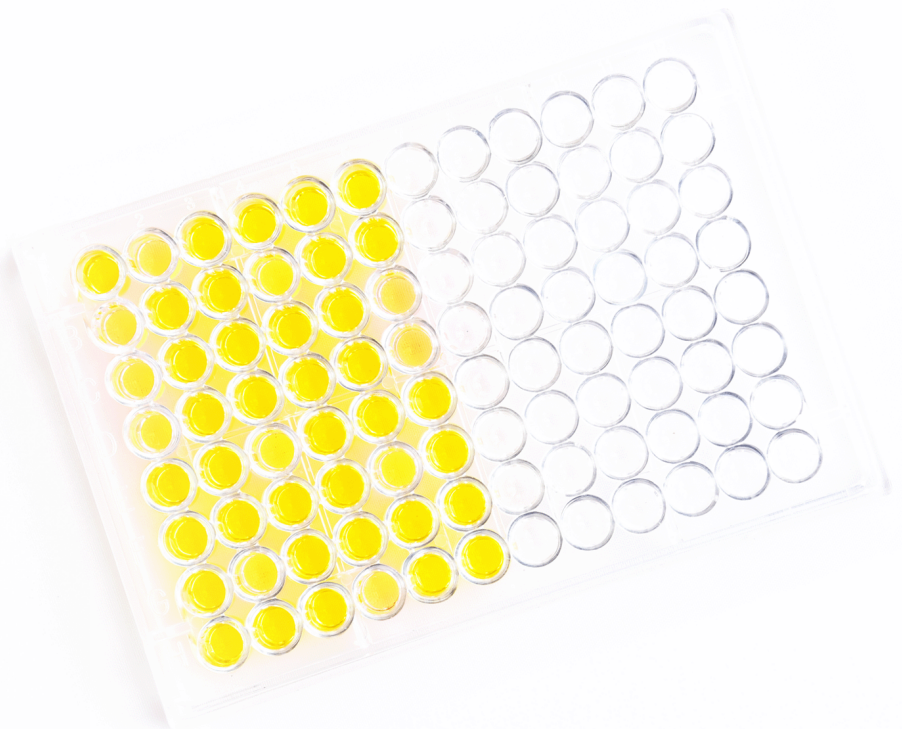

- Fast 60-minute (20:20:20) sandwich assay format
- Specific and highly sensitive detection of allergenic proteins
- Reliable quantitation for quality control
- Validated according to the AOAC guidelines for food allergens
- 96-well format with detachable strips (8x12).
